BAHL, Christopher D. Reading *tarājim* with Bourdieu: prosopographical traces of historical change in the South Asian migration to the late medieval Hijaz. *Der Islam*, 94 i (2017) pp. 234-275. Adopting Pierre Bourdieu's (d. 2002) sociological concepts of 'field', 'capital' and 'habitus', the article offers "a new analytical reading of ... biographical dictionaries [by the Mamlūk historians al-Fāsī, al-Maqrīzī, and al-Sakhāwī], in order to address broader questions of historical change in transregional movements of South Asian scholars (*al-Hindiyūn*, sg. *al-Hindī*) from the subcontinent to the Hijāz.
