HOWELL, Julia Day. Christendom, the *umma* and community in the age of televangelism. *Social Compass*, 61 ii (2014) pp. 234-249. Asks "whether processes of industrial and post-industrial change that have intensified religious individualization and the erosion of the parish-based religious community in the early-developer countries have stimulated similar transformations in the social forms of religious life in the later-developing Muslim-heritage countries as well."
